Live Bird of Prey Release
4:30 pm
End the day with the dramatic release of a rehabilitated bird back into the wild.

* In the event of inclement weather, family activities will be moved to the gym building and open air raptor demonstrations may need to be canceled.
Green Chimneys’ renowned Farm & Wildlife Center is home to 200 animals, including nearly 50 birds of prey. An Andean condor; Griffon vulture; numerous hawks, falcons, owls and several crows are under the care of expert wildlife staff. The students of the Green Chimneys School have some special needs of their own and through the rehabilitation and care of these animals they learn compassion, encouragement, and the true meaning of stewardship.

Green Chimneys is a nonprofit organization helping young people to maximize their full potential by providing residential, educational, clinical and recreational services in a safe and supportive environment that nurtures connections with their families, the community, animals and nature. Founded in 1947 and headquartered in Brewster, NY, Green Chimneys is recognized as a worldwide leader in animal-assisted therapy and educational activities for children with special needs. Green Chimneys services include an accredited special education school on two campuses, residential treatment center, animal-assisted and nature-based therapeutic programs, public education and recreation programs, and community-based support for youth and families. Green Chimneys is a past recipient of the ASPCA’s prestigious Henry Bergh Award honoring commitment to the care and well-being of animals.
