

Fall 2020

Dear Parents and Guardians,

The Recreation Department has resumed planning field trips for residents to experience all our community has to offer. Residents will be expected to wear masks when off campus. Agency vehicles will operate at a maximum of 75% capacity and depending on the distance of the destination, masks may be required for the duration of ride.

If a destination area develops an increased rate of COVID-19 cases, we will cancel planned trips and not reschedule until deemed safe.

Indoor Trips

For any activity that requires us to be indoors (trampoline parks, movies, bowling), we will be renting out the entire facility to ensure the health and safety of our residents. Masks will be required while at the indoor venue.

Outdoor Trips

For activities that can be done entirely outdoors (canoe trips, pumpkin picking, hiking), residents will bring masks with them. Staff will make sure the group keeps to themselves and maintains a safe social distance from other groups and individuals.

Please fill out the permission slip below and return to Recreation Program Supervisor Paige Cahill by email to pcahill@greenchimneys.org. If you have any questions, please call 845.279.2995 x307.

Green Chimneys Recreation Trip Permission

Resident First and Last Name: _____

Dorm Unit: _____
